LENOVO

Internship Overview

ORGANIZATION	LENOVO
PROGRAM	<u>Lenovo LEAP Internship</u>
INTERNSHIP DOMAIN	<u>WEB DEVELOPMENT</u>
ROLE	<u>Web App Development Intern</u>
DURATION	15-06-26 To 30-07-26 (6 Week)
MODE	<u>REMOTE</u>

The Lenovo LEAP Internship, conducted in collaboration with AICTE, provided valuable industry exposure through hands-on learning and practical experience in a professional environment. The internship helped bridge the gap between academic knowledge and real-world application while strengthening technical skills

Organization Overview

LENOVO LEAP – NEXTGEN SCHOLAR PROGRAM
LENOVO LEAP – NEXTGEN SCHOLAR PROGRAM

Lenovo LEAP: NextGen Scholar Program is an industry-driven initiative designed to equip students with essential skills in emerging technologies. The program is offered completely free of cost to all participants **in collaboration with the All India Council for Technical Education (AICTE).**

Participants work on real-life projects through live masterclasses and mentorship sessions, providing hands-on practical exposure and industry-relevant learning.

INTERNSHIP OBJECTIVES

LEARN → APPLY → DEVELOP → COLLABORATE → GROW

- **Apply Academic Knowledge** — Transform theoretical concepts into practical, real-world solutions.
- **Learn AI-Driven Development** — Understand how AI can be integrated into modern web applications.
- **Gain Hands-on Experience** — Develop practical skills through projects, masterclasses, and guided activities.
- **Strengthen Problem-Solving Skills** — Learn to analyze challenges and develop effective technical solutions.
- **Enhance Professional Skills** — Improve teamwork, communication, collaboration, and time management.
- **Build Industry Readiness** — Gain the confidence and practical exposure required for a professional technology environment.

TECHNOLOGY WORKFLOW

Edit with WPS Office

A full-stack web application designed to simplify and automate the process of student registration and management.

Educational institutions often rely on manual and time-consuming processes for student registration, leading to errors, delays, and difficulty in data management.

SOLUTION

StudentReg provides a digital solution to streamline student registration, manage records efficiently, and generate real-time reports for better decision-making.

Edit with WPS Office

Project Features & Live Links

Student Registration

Register new students by filling in the registration form with required details.

Manage Records

View, update and delete student records easily through the dashboard.

Search & Filter

Search and filter students by name, roll number, course or other details.

Secure & Reliable

Secure data storage and validation to ensure data accuracy and safety.
